Objective

To leverage my expertise as a **MuleSoft Developer** in designing, developing, and optimizing enterprise integration solutions while ensuring seamless data flow across multiple systems.

Professional Summary

- 6+ years of IT experience, including 5+ years as a MuleSoft Developer.
- Proficient in Anypoint Studio, Anypoint Platform, Mule ESB, API Manager,
 DataWeave, and Connectors.
- Hands-on experience in REST & SOAP Web Services, API development, and integration.
- Strong knowledge of CloudHub deployment, API security, and automation using MUnit testing.
- Skilled in agile methodologies and C4E tasks.
- Ability to work in team environments, coordinate effectively, and meet deadlines.

Work Experience

MuleSoft Consultant – Ensocode Software Solutions Pvt Ltd, Remote (Sep 2024 – Present)

- Designed and developed MuleSoft-based enterprise integration solutions for B2B clients.
- Led API development, system integration, and data transformation projects.
- Managed client communication, requirement gathering, and solution architecture.
- Implemented best practices for API security, logging, and performance optimization.

Consultant – Surnoi Technologies Pvt Ltd, Hyderabad (Jan 2024 – Aug 2024)

- Developed API-to-API bidirectional integration using platform events.
- Designed middleware logic and mappings for seamless data synchronization.
- Created utility APIs for notifications and system monitoring.
- Implemented data archival and monitoring solutions using Azure storage.

Senior Associate Consultant – TCS, Bengaluru (Aug 2022 – Feb 2023)

Migrated and optimized MuleSoft APIs, reducing API response time by 30%.

- Developed custom DataWeave transformations and API security policies.
- Conducted **unit testing using MUnit**, ensuring 95%+ test coverage.
- Deployed applications via GitHub and Jenkins in CloudHub.

Associate Consultant – Infosys, Hyderabad (Jun 2021 – Aug 2022)

- Designed and developed Salesforce-integrated APIs for airline ticketing systems.
- Implemented RAML-based API specifications and API security policies.
- Managed batch processing, messaging services, and API routing.
- Performed code reviews and design optimization.

Senior Software Engineer – Amrutha Infotech Pvt Ltd, Hyderabad (Jan 2019 – May 2021)

- Developed **RESTful and SOAP-based APIs** for enterprise clients.
- Led API integrations for **third-party platforms**, optimizing system interoperability.
- Created unit and integration tests, ensuring stability in production environments.
- Provided technical guidance and documentation for API development.

Education

• Bachelor of Engineering (Electrical & Electronics Engineering) – JNTU Hyderabad (Graduated June 2017, 65%)

Certifications

• MuleSoft Certified Developer - Level 1 (Mule 4) (Valid till 2026)

Technical Skills

- Integration Technologies: MuleSoft, Anypoint Studio, API Manager, CloudHub, DataWeave
- Programming: Java, JDBC, Servlets, JSP
- Web Services: REST, SOAP, RAML, JSON, XML
- Databases: Oracle, MySQL, SQL Server, Azure DevOps, Salesforce
- Tools & Platforms: CI/CD Pipeline, GitHub, Jenkins, JIRA, Tomcat, AWS S3, AWS SQS

Project Experience

Project 1: Teladoc Health (Surnoi Technologies) (Jan 2024 – Present)

- Designed and developed MuleSoft integrations for patient data management.
- Created data processing logic for Azure-based storage and archival.
- Implemented API security measures and error-handling notifications.

Project 2: Intel (TCS) (Aug 2022 – Jul 2023)

• Led **Mule 3 to Mule 4 API migration**, reducing API downtime by 40%.

- Enhanced performance and security using custom API policies.
- Implemented **event-driven integrations** for data synchronization.

Project 3: Airline Ticketing System (Infosys) (Jun 2021 – Aug 2022)

- Developed Salesforce-integrated airline booking APIs.
- Automated workflow processes using MuleSoft batch processing.
- Improved API request handling efficiency using optimized transformations.

Project 4: Del Monte Foods (Amrutha Infotech) (Mar 2020 – May 2021)

- Built data integration pipelines for real-time supply chain management.
- Created **secure APIs** to interact with multiple backend systems.
- Provided technical documentation and mentorship to junior developers.

Declaration

I hereby declare that the information provided above is true to the best of my knowledge and belief.
